JOSIAH M. RICE, TREAS. OF SCHOOL DIST.

AUDITORS' REPORT.

We, the undersigned, certify that we have examined the accounts of the Selectmen, Treasurer, Overseer of the Poor, Board of Education, also J. D. Cutter as Road Agent, and find them correctly cast and safely vouched.

E. STEVENS,
H. E. MESSENGER, } AUDITORS.

REPORT OF SCHOOL BOARD.

It is not our purpose to criticise each school in town, as has sometimes been done, and to say that some terms have been very successful and creditable to both teacher and scholars will be but to speak the truth.

That our schools through town are not what we would wish, is not wholly the fault of your School Board; neither do we believe it is all due to the teachers of the past and previous years.

We have been able, with school funds at our disposal, to furnish twenty-three weeks school in two of the three schools, and twenty-four weeks in the other, that school having one week less last year, will explain the discrepancy.

That twenty-three weeks' school in a year is more than is appreciated by nearly one half the families having children of school-age, is shown by record of attendance. To prove this let me say, in No. 1 the fall term contained twenty-six scholars, winter term only sixteen, and three of those attended but two of the eight weeks, thus making a falling off equal to more than 40 per cent. in number of pupils; add to this 16 days absence and 125 tardy marks in 8 weeks, and you have your interest in our school clearly before you.

SCHOOL No. 2:—The regular attendance was very good, more absent marks than we like to see, however, and to our knowledge neither parents or pupils were burdened by the long school of 24 weeks during the year.

No. 3:—South Stoddard, 26 pupils were registered the first term. 27 fall, and only 18 for the winter, and 9 of these attended but very little, making a loss more than 60 per cent. to the whole district. That this condition of things can exist to such an extent is something that we are unable to explain; and while we regret that such is the case, we see no remedy within our reach; we can only appeal to parents and guardians to see that the children under their care are reasonably well educated, that at least they receive the full benefit of our full school year, which is short at best. What was said in last year's report, concerning the condition of our school-houses is true to-day, and we recommend that enough money be raised to repair the house at the South thoroughly. The sum need not be large, but let it be ample for new

floor, seats and desks of modern make, doors, windows and plastering. We believe in strict economy, but what is actually a necessity let us provide cheerfully.

In conclusion let me say that in the selection of teachers for their second and third term we have retained only those which we believed to be competent and worthy. That parents will keep everything only pleasant words from the School Board until a school is nearly done, after two or three successive terms, and to all appearance satisfactory and successful, and then find fault, is beyond our power to remedy. We will ask these questions; please think them over.

Have you had a kind word for the teacher?

Have you instructed that boy or girl to be a young gentleman or young lady toward their teacher and school-mates?

Have you insisted on a punctual attendance during all school hours?

Have you given them sympathy in their complaints about the teacher, or has she been fully sustained?

We ask your assistance, without which the School Board can do but little.

RESPECTFULLY SUBMITTED

BY J. F. WHITTEMORE FOR
